

AMENDMENTS TO THE CLAIMS

1-32. (Previously Canceled)

33. (Currently Amended) A modular vault comprising:

a seamless housing body unitarily formed as a single piece, said seamless housing body having portions defining a front wall having a door opening therethrough, a rear wall, two side walls, a roof and a floor;

a door frame ~~positionable~~ positioned in the door opening; and

a door ~~mountable~~ mounted in the door frame whereby said vault is fire resistant and burglary proof.

34. (Previously Amended) A modular vault of claim 33, wherein a plurality of hooks are integrally formed into the seamless housing body for facilitating hoisting the seamless housing body.

35. (Previously Canceled)

36. (Currently Amended) A modular walk-in vault comprising:

a seamless housing body unitarily formed as a single piece, said seamless housing body having portions defining a front wall having a door opening therethrough, a rear wall, two side walls, a roof and a floor;

a door frame ~~positionable~~ positioned in the door opening; and

a door ~~mountable~~ mounted in the door frame whereby said vault is fire resistant and burglary proof.

37. (Previously Added) A modular walk-in vault of claim 36, wherein a plurality of hooks are integrally formed into the seamless housing body for facilitating hoisting the seamless housing body.

38. (Previously Canceled)

39. (Previously Withdrawn) A method of installing a modular walk-in vault, comprising:
- prefabricating the modular walk-in vault at a remote facility;
 - transporting the prefabricated modular walk-in vault to a desired location; and
 - lowering the modular walk-in onto a footing at the desired location with substantially no additional assembly.
